Experience			
Full Stack Engineer	BrBit Sistemas	February 2024 - Present	
Designed and developed a robust microservice (.NET, RabbitMQ) for seamless integration with Banco do Brasil's batch payment API, automating and optimizing financial transaction processing.			
Designed and implemented a high-performance data aggregation service (Go, Gin, S3) consolidating 50+ distributed PostgreSQL databases into static datasets, reducing data processing time by 80%.			
Built a dynamic dashboard (Next.js, Chart.js, React Query) that fetches data based on user tenancy and role, ensuring personalized and secure access to relevant information.			
Implemented CI/CD pipelines, deployed new services to production, and provided ongoing support by debugging and ensuring optimal performance for more than 10 services.			
Full Stack Developer	BrBit Sistemas	January 2023 - February 2024	
Collaborated and maintained a multi-tenancy admin web application (.NET, React, Next.js) for more than 60 tenants.			
Designed and deployed a dynamic report generation platform (Node, PostgreSQL, Puppeteer, S3, SES) that automated 95% of manual processes, serving 200+ monthly users with PDF/Excel outputs.			
Education			
Bachelor of Information Systems	UNIFEBE	Febraury 2023 - December 2026	
Technical in Information Technology	IFC Campus Brusque	Febraury 2020 - December 2022	
Projects			
Blog (View, Github) <i>Typescript, Next.js, MDX, Tailwind CSS, Redis, GitHub REST API</i>			
Engineered full-stack CMS using Next.js 14 App Router with MDX content pipeline, enabling code snippet embedding and Admin access for managing posts.			
Cliparoo (View, Github) <i>Tauri, Svelte, Svelte Kit, Rust, Tailwind CSS, Daisy UI</i>			
Developed a privacy-focused desktop cross-platform clipboard manager that enhances productivity through advanced clipboard management. Features include smart search across 2000+ clipboard history items, customizable themes, clean dashboard. Built with SvelteKit's file-based routing and Daisy UI components for better UI experiences while maintaining 100% local data storage by default.			
Languages			
Portuguese: Native			
English: Professional			
Skills			
General Programming: Javascript, Typescript, Go, C#, Java			
Web Development: JavaScript, HTML, CSS, React, Next.js, Vite, Svelte, MUI, Shadcn/ui, Tailwind CSS, Node.js, Bun, Prisma, C#, .NET, Entity Framework, Express, WebSockets, RESTful APIs, GraphQL, Puppeteer, SEO			
Databases: PostgreSQL, MySQL, MongoDB, Redis			
Cloud & DevOps: AWS (S3, SES, SQS), Firebase, Vercel, Docker, CI/CD Pipelines			
Tools: Git, GitHub, GitLab, Postman, Insomnia, VS Code, Docker, Figma			
Soft Skills: Problem-Solving, Teamwork, Communication, Time Management
