Experience

Full Stack Engineer BrBit Sistemas Feb 2024 - Present

Designed and developed a robust microservice (.NET, RabbitMQ) for seamless integration with Banco do Brasil's batch payment API, automating and optimizing financial transaction processing.

Designed and implemented a high-performance data aggregation service (Go, Gin, S3) consolidating 50+ distributed PostgreSQL databases into static datasets, reducing data processing time by 80%.

Built a dynamic dashboard (Next.js, Chart.js, React Query) that fetches data based on user tenancy and role, ensuring personalized and secure access to relevant information. Implemented CI/CD pipelines, deployed new services to production, and provided ongoing support by debugging and ensuring optimal performance for more than 10 services.

Full Stack Developer BrBit Sistemas Jan 2023 - Feb 2024

Collaborated and maintained a multi-tenancy admin web application (.NET, React, Next.js) for more than 60 tenants.

Designed and deployed a dynamic report generation platform (Node, PostgreSQL, Puppeteer, S3, SES) that automated 95% of manual processes, serving 200+ monthly users with PDF/Excel outputs.

Education

Bachelor of Information Systems UNIFEBE Feb 2023 - Dez 2026

Technical in Information Technology IFC Campus Brusque Feb 2020 - Dez 2022

Projects

Blog (View, Github) Typescript, Next.js, MDX, Tailwind CSS, Redis, GitHub REST API

Engineered full-stack CMS using Next.js 14 App Router with MDX content pipeline, enabling code snippet embedding and Admin access for managing posts.

Cliparoo (View, Github) Tauri, Svelte, Svelte Kit, Rust, Tailwind CSS, Daisy UI

Developed a privacy-focused desktop cross-platform clipboard manager that enhances productivity through advanced clipboard management. Features include smart search across 2000+ clipboard history items, customizable themes, clean dashboard. Built with SvelteKit's file-based routing and Daisy UI components for better UI experiences while maintaining 100% local data storage by default.

Languages

Portuguese: Native

English: Advanced

Skills

General Programming: Javascript, Typescript, Go, C#, Java

Web Development: JavaScript, HTML, CSS, React, Next.js, Vite, Svelte, MUI, Shadcn/ui, Tailwind CSS, Node.js, Bun, Prisma, C#, .NET, Entity Framework, Express, WebSockets, RESTful APIs, GraphQL, Puppeteer, SEO

Databases: PostgreSQL, MySQL, MongoDB, Redis

Cloud & DevOps: AWS (S3, SES, SQS), Firebase, Vercel, Docker, CI/CD Pipelines

Tools: Git, GitHub, GitLab, Postman, Insomnia, VS Code, Docker, Figma

Soft Skills: Problem-Solving, Teamwork, Communication, Time Management
