Experience

Full Stack Engineer

BrBit Sistemas

February 2024 - Present

- Designed and developed a robust microservice (.NET, RabbitMQ) for seamless integration with Banco do Brasil's batch payment API, automating and optimizing financial transaction processing.
- Designed and implemented a high-performance data aggregation service (Go, Gin, S3) consolidating 50+ distributed PostgreSQL databases into static datasets, reducing data processing time by 80%.
- Built a dynamic dashboard (Next.js, Chart.js, React Query) that fetches data based on user tenancy and role, ensuring personalized and secure access to relevant information.
- Implemented CI/CD pipelines, deployed new services to production, and provided ongoing support by debugging and ensuring optimal performance for more than 10 services.

Full Stack Developer

BrBit Sistemas

January 2023 - February 2024

- Collaborated and maintained a multi-tenancy admin web application (.NET, React, Next.js) for more than 60 tenants.
- Designed and deployed a dynamic report generation platform (Node, PostgreSQL, Puppeteer, S3, SES) that automated 95% of manual processes, serving 200+ monthly users with PDF/Excel outputs.

Education

Bachelor of Information Systems	UNIFEBE	Febraury 2023 - December 2026
Technical in Information Technology	IFC Campus Brusque	Febraury 2020 - December 2022

Projects

Blog (View, Github) Typescript, Next.js, MDX, Tailwind CSS, Redis, GitHub REST API

Engineered full-stack CMS using Next.js 14 App Router with MDX content pipeline, enabling code snippet embedding and Admin access for managing posts.

Cliparoo (View, Github) Tauri, Svelte, Svelte Kit, Rust, Tailwind CSS, Daisy UI

Developed a privacy-focused desktop cross-platform clipboard manager that enhances productivity through advanced clipboard management. Features include smart search across 2000+ clipboard history items, customizable themes, clean dashboard. Built with SvelteKit's file-based routing and Daisy UI components for better UI experiences while maintaining 100% local data storage by default.

Languages

• Portuguese: Native

English: Professional

Skills

- General Programming: Javascript, Typescript, Go, C#, Java
- Web Development: JavaScript, HTML, CSS, React, Next.js, Vite, Svelte, MUI, Shadcn/ui, Tailwind CSS, Node.js, Bun, Prisma, C#, .NET, Entity Framework, Express, WebSockets, RESTful APIs, GraphQL, Puppeteer, SEO
- Databases: PostgreSQL, MySQL, MongoDB, Redis
- Cloud & DevOps: AWS (S3, SES, SQS), Firebase, Vercel, Docker, CI/CD Pipelines
- Tools: Git, GitHub, GitLab, Postman, Insomnia, VS Code, Docker, Figma
- Soft Skills: Problem-Solving, Teamwork, Communication, Time Management
